Call for Papers

This year, it is the third edition of IOE Graduate Conference, being organized as a three-day event. The first day would comprise keynotes from national and international speakers with focus on disaster management, post disaster recovery/reconstruction, etc. for addressing the post-earthquake necessities of the country. The second and third days would be followed by paper and poster presentations of the research works by graduate students of IOE.

The conference committee solicits high quality papers containing original contribution in the following, but not limited to, the following broad thematic areas.

Themes

- Resilient and Sustainable Infrastructure Engineering
- Architecture with Appropriate and Social Technologies
- Smart Power Engineering and Renewable Energy Solutions
- Innovation Technologies and Engineering Management
- Improved Technologies for Urban Planning and Design
- Environment and Resource Optimization Engineering
- Climate Change and Development
- IT, IT-enabled Services, and Communication Technologies
- Intelligent Computing and Informatics
